

WHAT DOES IT MEAN TO BE BOARD CERTIFIED BY THE CBMT?

The music therapist:

- has met specific educational and clinical requirements for eligibility
- has passed the Board Certification Exam
- participates in the re-certification program

CBMT programs provide public protection and a national standard for music therapists who wish to demonstrate competence through a certification and recertification process.

The MT-BC credential is used by consumers, employers, personnel boards, and facilities to identify competent music therapy practitioners.
